PORTO RICAN TARIFF REPEALED.

Schley Inquiry Court Has Been Named Special to THE TELEGRAPH.

WASHINGTON, D. C., July 25.—President McKinley has issued a proclamation abrogating the tariff between this country and Porto Rico.

Dewey President of Inquiry Court. Special to THE TELEGRAPH.

WASHINGTON, D. C., July 25.—The court of inquiry was appointed at the request of Rear Admiral Schley to investigate the battle of Santiago and officially settle the Sampson-Schley controversy. The inquiry was asked by Schley on account of published charges made in MacLay's History of the Navy used as a text book in the Naval Academy.

Admiral Schley was appointed president of the court with Rear Admirals Kimberley and Benham. Commander John E. Pillsbury will be Judge advocate. The court will probably not convene until next fall.

School Coal Contract.

There has been some censure of the South Side School Board for their recent action in ignoring the lowest bid of the nine coal dealers of the city and awarding the contract to another. The lowest bid was \$7.65 per ton for 35 tons of anthracite and \$2.75 per ton for 250 tons of bituminous coal. The bid accepted will cost the tax-payers \$27.75 more than the lower bid. A member of the school board was asked as the reason of this discrepancy this morning. He replied that the school board at its meeting had given the matter the fullest consideration for an hour or more and considered that by the action taken \$75 had been saved to the taxpayers. The board last year accepted the lowest bid and bought cheap coal yet the school coal bill was much more than two years ago when higher priced coal had been put in. "The board," said the member, has simply taken advantage of past experience, the same as a private buyer would do. We had the statements of factories which have been using the different kinds of coal, also, and their verdict was for the kind which we have contracted for. We also got the opinion of the janitor, who has been on duty at the schools for a number of years. We gave everybody a fair chance and whoever had the coal we wanted would have gotten the contract. As to the high or low bids, it was understood that the board reserved the right to reject any and all bids."

Life Crushed Out at Rockford.

Wednesday afternoon a peculiar and fatal accident happened at Rockford, Charles, a 13-year-old son of John Brooks, with some companions was playing hide and seek, near the South-Second street bridge over the North-Western tracks.

To conceal himself he dropped behind a large artificial stone horse block in front of the Seymour residence. At the same instant a South Second street car came over the bridge going toward State street. Starting down the incline the car jumped the track. It started toward the curb with the momentum gained through the incline and struck the horse block squarely. The stone toppled upon the boy and the car held down the weight. Only a low moan escaped Brooks' lips and he must have died almost instantly. The car stuck fast and could not be moved without the aid of jackscrews. It was several minutes before the lifeless form could be taken from beneath the rock.

OFF AND ON.

Every Other Night Rest For Clerks.

There is a movement among the clerks of Dixon to induce their employers to close their places of business three nights of each week at 6 p. m., or every other evening. This would soon educate the evening shoppers to do their buying at the proper time and would lessen greatly the hours of labor for the clerks each week and give them time for recreation.

Target Practice.

The Dixon Gun club will have target practice tomorrow afternoon at 2 o'clock on the West-end grounds. Shooters from Sterling will be present.

—Mrs. H. Gunz and daughter who has been visiting with her daughter Mrs. A. Elchler for the past four months, left for Minneapolis to make that city her future home.

OVER AN INCH OF RAIN.

Rain Did Much Good but Lightning Caused Several Fires.

Yesterday the thermometer made a record of 107, and 1.09 inches of rain fell last night. Over four and one-half inches of rain has fallen this month and the longest stretch between rains was 19 days; but there were some pretty hot days between; over 100 on seven day.

The rain came before the corn had suffered much and will doubtless save the farmers of Lee and surrounding counties many thousand dollars. Accompanying the rain was a heavy wind which blew down some corn but did not damage it much; the lightning, however, was severe in some cases and caused several fires in this vicinity as well as killing some stock.

Eugene Heckman, living south of Dixon lost two cattle by lightning, but they were insured.

Lightning struck a barn in the neighborhood of Teals Corners, north of Grand Detour, causing a fire. We did not learn who the owner of the barn was.

The farm buildings on the place owned by Mrs. T. C. Hoover, north of Sterling, were struck by lightning last night and greatly damaged, fire breaking out and destroying the house.

Fourth Street Methodist church at Sterling was struck by lightning last night, though but slight damage was done, only a few bricks knocked from the tower.

The barn on the Michael Ebersole farm, about twelve miles north of Sterling, was struck by lightning last night during the storm and consumed.

A number of telegraph poles on the C. & N. W. between Nelson and Sterling were blown down last night, the damage being repaired today.

Railroad Mail Clerks of Dixon.

Dixon is well represented in the railway mail service. We mean that the young men who make Dixon their headquarters are not only worthy of Uncle Sam's service, but we are free to say that the number is such as few towns of the size of Dixon can boast. They talk of making this their place of payment by the government. The clerks in the service above referred to are: Messrs. E. G. Brunner, H. Kitchen, C. B. Rhodes, C. C. Rorist, Irwin Lewis, Frank Ackert, Tom Barry, Geo. Nye, W. W. Teachout.

F. M. Harned is also a Dixon boy in the railway mail service.

Keystone Hotel Opens.

The new Keystone Hotel opened for business this morning and dinner was the first meal served in the establishment. The rooms have been thoroughly cleaned and renovated and paint and paper put to good use. The hotel was recently purchased by A. M. Smith, a long time resident of this city. He will conduct the hostelry in a business-like way and deserves the patronage of the public.

Family Reunion.

Mrs. Lewis, son George, and granddaughter Mary of Reading, Pennsylvania, are here on a visit at the Dave Lafferty home. At the same time this party started for Dixon, but unknown to them, Mrs. Mary Leggett and Mrs. Rebecca Dotterer of Philadelphia also started to visit Mr. and Mrs. Lafferty and the reunion which ensued in Dixon was a mutual surprise.

Married Men Preferred.

A movement has been started among the manufacturers of Kenosha by which it is proposed to fill their shops with married men who can be counted on to remain at work twelve months in the year. One thousand men are now needed in Kenosha.

Harold Ward Here.

Frank Casson, formerly city editor of the Star, has returned to his home in Minneapolis, Minn. He was a bright young newspaper man and many are sorry to see him go. Harold E. Ward, a popular Sterling newspaper man, is filling the position temporarily.

Large Fish.

John and William England drove to Dixon from Grand Detour this morning. They had a dead head passenger, a 30-pound catfish which caused considerable comment on the streets. It was caught on an outline by Wm. England.

Retail Merchants Meeting.

The retail Merchants Association will have a meeting tomorrow Friday evening at the city council rooms. Important business will require a full attendance. Don't fail to be there.

WEEKLY CROP BULLETIN.
Report of the Illinois Section of the U. S. Department of Agriculture for the Week Ending July 23.
SPRINGFIELD, ILL., July 23, 1901.
The weather continued very warm and dry during the past week, and in the central and southern districts the temperature reached 100 degrees or above on several days. The drought was relieved to a considerable extent in the northern portion of the state, by light to ample showers; these, however, were very local in character and in many places there was no rain whatever, or the showers were so light as to bring no relief. In the central district the showers were light and widely scattered, and in the south there were no beneficial rains. The week was favorable for harvesting, haying and threshing, and this work is nearing completion. The yield and quality of wheat have exceeded expectations in nearly all portions of the state.
The cat harvest is about completed and although the reports indicate that the straw is generally short, the yield will be fair. Corn is beginning to show the effects of the long continued drought, especially in bottom lands, but not to such a great extent as was anticipated, the leaves are curling during the heat of the day in a great many cases, and in a few localities the top leaves and tassels are dying. Where the showers fell the corn was helped very materially, but the few showers, especially in the central and southern portions of the state, did not seem to greatly affect the general condition of the crop. Almost all correspondents say that if good rains occur within a week or ten days the slight damage that the crop has thus far suffered will probably be repaired to a decided extent. Haying is about finished, and the crop is light. Pasture are in poor condition and the farmers all over the State are feeding their stock. Gardens and potatoes have suffered very much, the damage being general. Apples continue to fall except where sprayed, and in some sections the crop is an entire loss. Peaches and grapes are promising to be a good crop. Barries have almost all dried up on the bushes. Stock water is growing scarce and wells are drying up in a number of places. Stock peas appear to be in fair condition.
NORTHERN DISTRICT.
DeKalb—Maita—F. S. Corey—Oats nearly all cut; threshing will begin next week; corn was much improved by a rain; showers were scattered and

pastures need a good rain; apple crop poor.
Lee—Dixon—Lee Story—Oats yield 25 to 35 bushels per acre; low land pastures still good; corn not doing much yet; potatoes scarce; apples have nearly all fallen.
Ought to Consider It Good.
In regard to MacLay's "History of the United States Navy" which has caused so much attention lately on account of its unwarranted abuse of the hero of Santiago—Admiral Schley—the following are the words of Sampson. Observe that he says nothing of the account of my campaigns a good one. About the rest of it I cannot judge accurately, perhaps, having no intimate knowledge of the events described.
Why shouldn't he "consider the account a good one" when it was written with the express purpose in view of magnifying Sampson and vilifying the man who destroyed the Spanish fleet—Admiral Schley?
Locomotive Starts Fire in Amboy.
Monday afternoon about 2:30 o'clock the Illinois Central pump house at Amboy caught fire and owing to the oil and grease inside of the building was rapidly consumed. The fire department was called out, but was unable to reach the building in time. They succeeded, however, in keeping the fire away from the gasoline tank in which is kept the supply of gasoline for the engine and which is partly sunk in the earth just south of the building. The fire was started by sparks from a passing locomotive.

An All 'Round Consul.
Geo. H. Pickrell, United States Consul at St. Michael, Azore Islands, now represents King Edward during the absence from the Island of the English representative; and he has also for some time been acting consul there for Norway and Sweden. His wife, formerly Miss Nellie Darling, is a cousin of Joseph W. Crawford and has visited Dixon.
—The waterworks of Oregon, Ogle county are said to be first-class and the supply cheap to consumers. The water is from an artesian well to a reservoir on top of a hill three hundred feet high where it is forced to the city. It costs but \$120 a year to do the pumping and the city treasurer does the collecting.

WEEKLY CROP BULLETIN.
Report of the Illinois Section of the U. S. Department of Agriculture for the Week Ending July 23.
SPRINGFIELD, ILL., July 23, 1901.
The weather continued very warm and dry during the past week, and in the central and southern districts the temperature reached 100 degrees or above on several days. The drought was relieved to a considerable extent in the northern portion of the state, by light to ample showers; these, however, were very local in character and in many places there was no rain whatever, or the showers were so light as to bring no relief. In the central district the showers were light and widely scattered, and in the south there were no beneficial rains. The week was favorable for harvesting, haying and threshing, and this work is nearing completion. The yield and quality of wheat have exceeded expectations in nearly all portions of the state.
The cat harvest is about completed and although the reports indicate that the straw is generally short, the yield will be fair. Corn is beginning to show the effects of the long continued drought, especially in bottom lands, but not to such a great extent as was anticipated, the leaves are curling during the heat of the day in a great many cases, and in a few localities the top leaves and tassels are dying. Where the showers fell the corn was helped very materially, but the few showers, especially in the central and southern portions of the state, did not seem to greatly affect the general condition of the crop. Almost all correspondents say that if good rains occur within a week or ten days the slight damage that the crop has thus far suffered will probably be repaired to a decided extent. Haying is about finished, and the crop is light. Pasture are in poor condition and the farmers all over the State are feeding their stock. Gardens and potatoes have suffered very much, the damage being general. Apples continue to fall except where sprayed, and in some sections the crop is an entire loss. Peaches and grapes are promising to be a good crop. Barries have almost all dried up on the bushes. Stock water is growing scarce and wells are drying up in a number of places. Stock peas appear to be in fair condition.
NORTHERN DISTRICT.
DeKalb—Maita—F. S. Corey—Oats nearly all cut; threshing will begin next week; corn was much improved by a rain; showers were scattered and

pastures need a good rain; apple crop poor.
Lee—Dixon—Lee Story—Oats yield 25 to 35 bushels per acre; low land pastures still good; corn not doing much yet; potatoes scarce; apples have nearly all fallen.
Ought to Consider It Good.
In regard to MacLay's "History of the United States Navy" which has caused so much attention lately on account of its unwarranted abuse of the hero of Santiago—Admiral Schley—the following are the words of Sampson. Observe that he says nothing of the account of my campaigns a good one. About the rest of it I cannot judge accurately, perhaps, having no intimate knowledge of the events described.
Why shouldn't he "consider the account a good one" when it was written with the express purpose in view of magnifying Sampson and vilifying the man who destroyed the Spanish fleet—Admiral Schley?
Locomotive Starts Fire in Amboy.
Monday afternoon about 2:30 o'clock the Illinois Central pump house at Amboy caught fire and owing to the oil and grease inside of the building was rapidly consumed. The fire department was called out, but was unable to reach the building in time. They succeeded, however, in keeping the fire away from the gasoline tank in which is kept the supply of gasoline for the engine and which is partly sunk in the earth just south of the building. The fire was started by sparks from a passing locomotive.

An All 'Round Consul.
Geo. H. Pickrell, United States Consul at St. Michael, Azore Islands, now represents King Edward during the absence from the Island of the English representative; and he has also for some time been acting consul there for Norway and Sweden. His wife, formerly Miss Nellie Darling, is a cousin of Joseph W. Crawford and has visited Dixon.
—The waterworks of Oregon, Ogle county are said to be first-class and the supply cheap to consumers. The water is from an artesian well to a reservoir on top of a hill three hundred feet high where it is forced to the city. It costs but \$120 a year to do the pumping and the city treasurer does the collecting.

GET INSIDE.

Your Friend and Neighbors in Dixon will show you how.

Rubbing the back won't cure backache. A liniment may relieve, but can't cure. Backache comes from the inside, from the kidneys. Doan's Kidney Pills get inside. They cure sick kidneys. Here is Dixon proof that this so.

Mr. D. D. Calkin, painter and contractor, of 811 Third street, says: "If a recommendation from me about Doan's Kidney Pills will be the means of inducing others to try that remedy, I am only too pleased to endorse the preparation. I had kidney complaint in its worst forms for several years notwithstanding the fact that I was constantly trying to check the trouble. I conscientiously say that Doan's Kidney Pills procured at Leake Bros.' Drug Store have given me a new lease of life. I have gone out of my way to recommend Doan's Kidney Pills to friends and acquaintances whom I knew required just such a medicine. I will be only too pleased to recommend the preparation to anyone inquiring."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no substitute.

Does It Pay to Buy Cheap.

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the ONLY remedy that has been introduced in all civilized countries with success in severe throat and lung troubles. "Boschee's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try ONE bottle. Recommended many years by all druggists in the world. Get Green's Prize Almanac. E. M. Bunnell Co.

ANOTHER VIRDEN RIOT

Threatened Over the Arrival of Negro Workman at a Suburb of Chicago.

APPEAL MADE TO THE GOVERNOR

Who Refers the Appellants to the Sheriff—Illinois Law on the Subject—Progress of the Big Strike.

Chicago, July 25.—A dispatch from Springfield, Ills., says: "Governor Yates was asked by telegraph yesterday to stop the threatened importation of 200 Birmingham, Ala., negroes into Illinois to take the places of strikers at the plant of the Latrobe Foundry company, Melrose Park, near Chicago. Under the allegations presented to him Governor Yates could see no way under the law to interfere, and suggested that the sheriff be called upon. The message was signed by the following committee, approved by a mass meeting of citizens: Rev. Cookinham, M. E. church; Rev. Burlbach, Roman Catholic church; Peter Bolander, A. T. Gallagher, W. Lee and Henry Behler.

Tells Them to Call on the Sheriff. "Governor Yates replied by telegraph: 'Telegram signed by you and several others received. I suggest if there is danger, disorder or violation of laws by bringing persons into the state, either under arms or under false pretenses, you should call upon the sheriff of Cook county, whose duty it is to preserve peace, and who is abundantly able to do so.' The law passed after the Virden riot is very specific on the matter of importing laborers into the state. The importation of an armed body of workmen is made a felony. It is also a felony to import persons who have agreed to work for a stipulated wage, etc. As none of these things was alleged in the message asking the governor to interfere he could see no way under law to take a hand in the matter."

Village Officials Talk for Violence. In the meantime feeling is at fever heat in the adjoining villages of Maywood, Belleville and Melrose Park, suburbs of Chicago, over the expected arrival of the negroes. The factory is in Belleville and nearby barracks for the imported laborers have been prepared. President Doherty, of the village board, said yesterday that the negroes should be kept out at all hazards. The officials of Maywood and Melrose Park were equally outspoken in declaring that the imported men should not be allowed to crowd out white men. One of them said that the negroes would be excluded if it took every man and every gun in the three villages to do it. The management of the plant has asked for police protection.

No Strike in the Latrobe Plant. As a matter of fact there is no strike in the Latrobe plant. Last night the committee appointed to communicate with the governor reported to a mass meeting of the three towns what the governor had replied. The governor's message was received with hisses. It was decided that word be sent to President Shaffer, of the Amalgamated Association, requesting him to send a man to Chicago to organize the employees of the Latrobe company, so that they might have the support of the association in case a strike should be declared.

GREAT STRIKE DEVELOPS NOTHING

Except Two Alleged Moves of the Mill Owners—As to a General Strike.

Pittsburg, July 25.—Two moves, it is reported, were made by the officials of the American Sheet Steel company yesterday toward the breaking of the strike. One was the shipping of some of the non-union men who have been employed in the Vandergrift mills of the company to Wellsville to assist in the starting of the plant there. As a consequence of this report there is a suppressed excitement pervading Wellsville which at any moment may break out into a serious condition. Both strikers and officials of the company are on the alert and ready for any emergency. The impression is strong that the general officers of the United States Steel Corporation have become determined on the subject of early breaking the strike and to ultimately force the operation of all the idle plants.

The second move that is understood to have been initiated is the starting of the long idle Hyde Park plant of the American Sheet Steel company. This plant was taken into the combine burdened with objectionable contracts made by the former owners, and has remained idle since the American Sheet Steel company took hold of the property. The long idleness of the mill has caused most of the men formerly employed there to leave Hyde Park for other places, and the company believes there would be less difficulty in starting this plant than where the Amalgamated Association has control.

Concerning the issuance of a general strike order by the Amalgamated Association, President Shaffer said yesterday: "It will be issued when the necessity arises. I do not propose to fix a time in advance. The men are all prepared and will obey the strike order when requested. Developments will determine any change from the present situation. We are ready for settlement, but it must be an honorable settlement."

SHAFFER ACTS THE SLEUTH

Disguises Himself and Goes to Wellsville, So It Is Reported.

Pittsburg, July 25.—The following telegram was received from Wellsville last night: "Disguised as a decrepit, half-blind, ragged tramp, President Shaffer stepped into Wellsville this afternoon, remained here an hour in conference with Vice President Chapell and other officials, and boarded the evening train at East Liverpool to return to Pittsburg. Not a half dozen persons in Wellsville knew tonight that the chief of the workers organization was in town. President Shaffer would

not state the object of his mission to Wellsville. It was intimated that he was here to outline the policy of the strikers in view of the threatened injunction proceedings.

"He made this statement just before leaving East Liverpool: 'There will be no injunction. I think I have accomplished that much. No injunction will be granted unless our men resort to violence, unless we coerce and intimidate men into remaining away from the mill. Thus far our men have violated no law.'"

"On the same train with Mr. Shaffer from Pittsburg came nine non-union men from Apollo and Duncansville five of whom evaded the strikers' committee and went to work in the mill here, while the other four, after going through an experience with the 100 strikers which at one time seemed likely to end in violence, agreed not to work in the mill, and returned to Pittsburg. When the non-unionists tumbled off the smoker they were met at once recognized and surrounded. The greeting of cat-calls and throwing out of ugly epithets was calculated to put the newcomers in anything but an easy frame of mind. In the excitement five of the men worked their way through the crowd and into the company's offices, where they were safe."

Dictum of the McKeesport Mayor.

Pittsburg, July 25.—A dispatch from McKeesport says: "Mayor Robert J. Black has declared himself on certain phases of the strike. He gave warning that employers need not look to him for assistance should they decide to force an issue with the strikers. To the strikers he gave notice that no attempt to create trouble will be tolerated. He announced that McKeesport policemen should not be used to protect the mills, and said that deputies would not be tolerated in the town unless it were proved beyond doubt that they were there to protect life."

Why Forty Teamsters Struck.

Cincinnati, O., July 25.—Forty teamsters employed by the Cincinnati Transfer company struck yesterday because one of their number refused to work with a non-union man.

No Change in the 'Frisco Situation.

San Francisco, July 25.—The teamsters' strike continues with no material change in the situation.

SCHLEY CALLS FOR AN INQUIRY

Secretary of the Navy Promises to Grant the Admiral's Request.

Washington, July 25.—Rear Admiral Schley's letter requesting a court of inquiry has been received at the navy department, and Secretary Long has replied approving of Schley's action and promising to call the court at once, though it is probable that it will not begin work until September. Referring to MacLay's charges against him in his third volume of the history Schley says: "While I admit the right of fair criticism of every public officer, I must protest against the low flings and abusive language of this violent, partisan opponent, who has infused into the pages of his book so much of the malice of unfairness as to make it unworthy the name of history or of use in any reputable institution of the country."

One of the most offensive paragraphs of MacLay's book is the following: "On May 28 Schley cabled to the department: 'Much to be regretted, can not obey orders of the department. Have striven earnestly; forced to proceed for coal to Key West, by way of Yucatan channel. Can not ascertain anything respecting enemy positive,' and turned in caudal flight from the danger spot toward which duty, honor and the whole American people were most earnestly urging him. Viewed in whatever light it may be, the foregoing dispatch can not be characterized otherwise than as being, without exception, the most humiliating, cowardly and lamentable report ever penned by an American naval officer."

Alfalfa Saves Nebraska.

Omaha, Neb., July 25.—"We of Nebraska can defy the drought, so far as alfalfa is concerned," said J. J. Hurt, one of the best known ranchmen of the west. "My alfalfa stands two feet high and is apparently more thrifty than ever. We have harvested two crops this year, and now the third crop is nearly ready for the harvest, while a fourth cutting will yet be made. I believe the salvation of Nebraska is its magnificent alfalfa crop."

Scare Over the Brooklyn Bridge.

New York, July 25.—Late yesterday afternoon it was discovered that several of the suspension rods of the north cable of the Brooklyn bridge were broken. The damage was small, but it caused considerable of a furore for a time, the cars being stopped, as well as all other vehicles. Later service was resumed by the cars. Expansion caused by the heat probably broke the rods, which will soon be replaced.

Religious Liberty in Indiana.

Kokomo, Ind., July 25.—George Shelby and Mrs. Farris, disciples of the Dowie faith, were egged and stoned out of Walton by the people who took no stock in the Zion city vagaries. The couple were in this city next day threatening suits for damages.

Unloaded Gun Goes Off.

Quincy, Mich., July 25.—Mrs. Noah Hurst pointed an "unloaded" toy pistol at her brother, Charles Button, and pulled the trigger. Fortunately the bullet only inflicted a painful scalp wound, and a doctor dug it out.

MURDEROUS MADMAN

Promises to Kill Certain Persons, Practices with a Pistol and Runs at Large.

KEEPS HIS PROMISE LIKE HIS KIND

Result Is Two Men Dead, a Third Mortally Wounded, and Four Others Shot.

Leavenworth, Kan., July 25.—Michael Kelly, an insane man, yesterday, at the office of the Robert Garrett Lumber company, in the business district, shot seven people, killing one, probably fatally wounding another, and more or less seriously wounding four others. He was himself finally killed by officers who tried to overpower him. The victims are: John R. Garrett, aged 40 years, junior member of the firm of Robert Garrett Lumber company, died at hospital; Michael Kelly, aged 50, died after being taken to police station; Dr. Charles McGee, aged 30, shot in back and probably fatally wounded; Police Sergeant William Dodge, shot in neck, wound serious; Michael McDonald, detective, shot in leg; Joseph Faltzinger, policeman, shot in hand; Ike Healer, laborer at lumber yard, shot in hand.

There Was Method in His Madness.

Kelly had lived in Leavenworth for years, and at different times had engaged in minor business enterprises. He was eccentric, and during the presidential campaign of 1896 lost his mind entirely. At that time he was arrested for creating a disturbance, and later threatened to kill Garrett. He was arrested and adjudged insane. Garrett and four others testifying against him. After a year in the Topeka asylum Kelly was released. He had been acting queerly again, and had declared that he would kill the five men who sent him to the asylum. Daily for two weeks past he had been practicing shooting with a revolver at the Fort Leavenworth range. Tuesday night he drank heavily.

Begins His Murderous Work.

Yesterday, shortly after 12 o'clock, he appeared at Garrett's office, which is situated on the ground floor at the corner of Sixth and Cherokee streets, and without warning shot Garrett as he sat at his desk. Garrett fell from his chair and into the doorway, when Kelly deliberately fired four shots more into the prostrate form. Garrett was shot once in the neck, and twice in other portions of the body. Leaving his victim for dead Kelly ran fifty yards to the rear of the company's lumber yard and began reloading his revolver. Presently he returned to the office to find Dr. McGee, who had been attracted by the shooting, bending over Garrett. Leveling his revolver on the window sill, Kelly took deliberate aim at the physician and fired. The bullet struck McGee in the back at the spine, and he toppled over near where Garrett lay.

Police Come on the Scene.

Then followed an exciting street fight between the madman and officers who came upon the scene. Kelly, flourishing his revolver, dashed through the lumber yard. He met Ike Healer, a laborer, and shot him in the hand. A few yards further on he encountered Sergeant Dodge. The two exchanged shots as they ran. One bullet from Kelly's revolver struck Dodge in the neck, but not before that officer had shot Kelly in the shoulder. Kelly kept on running, and was soon confronted by Detective McDonald and Officer Faltzinger. McDonald dropped Kelly with a bullet in the neck.

Kelly Finally Gets His Quietus.

Kelly sank to the ground, and was carried to the station in an unconscious condition, dying soon after his arrival there. Garrett never regained consciousness, and died an hour after being taken to the hospital. Dr. McGee is still suffering seriously, and it is believed he cannot recover. Dodge's wound is not considered fatal, while the wounds of the others are slight.

SOME RELIEF BY RAINS

But the Corn Belt Continues Hot Enough to Roast Things.

Washington, July 25.—Scattered thunder showers in the northern tier of states in the central west yesterday gave some relief in that locality from the intense heat. These showers, which generally were light in character, occurred in the Dakotas, southern Minnesota, northwestern Iowa, the extreme northern portion of Illinois, in Minnesota and in Michigan.

More of these showers and over a wider area are expected by the weather bureau today. Their effect, however, will be temporary, and warm weather is again predicted for tomorrow. In the great corn belt the intense heat still continues, and there seems to be no immediate prospect of a general rain, though the fact that showers are becoming more general, than for some days is encouraging to the officials here, who hope they may be the forerunner of a general break up in the heat and drought conditions.

Man Gives Bond, Woman Doesn't.

Otsego, Mich., July 25.—On complaint of the wife of F. E. Pierce, he and Mrs. Marion MacMonagle are under arrest, charged with adultery; Pierce gave bonds for his appearance on July 26. The woman has been as yet unable to secure bail.

DETROIT HOLDS A FESTIVAL

Celebrates the Landing of Cadillac on the Town Site.

Detroit, July 25.—Two hundred years ago yesterday Cadillac, the French explorer, set his foot—the first white foot—on the ground that is now the site of Detroit, and yesterday morning the revenue cutter Fessenden fired a salute of twenty-one guns in honor of that event, ushering in a three-days' festival by which Detroit will do honor to the memory of the explorer. The spectacular feature of the day was the arrival in Detroit of M. Cadillac and his followers. Dr. Daniel La Ferte, a local Frenchman, impersonated the celebrated explorer, and was surrounded by fifty soldiers and an equal number of voyageurs arrayed in quaint costumes of the time of Cadillac.

They embarked late yesterday afternoon in picturesque batteaux and canoes from Peche island, above the city, on the Canadian shore. They were escorted by the revenue cutter Fessenden, on board of which was a number of city officials, Governor Bliss and staff, and M. Pierre de Margerie, French charge d'affaires at Washington. The batteaux proceeded to the foot of Bates street, where Cadillac landed 200 years ago. There the party was received by a tribe of real Indians, and Cadillac planted the banner of Louis XIV and took possession of the territory in the name of his king.

The procession then proceeded to the corner of Woodward and Jefferson avenues, where the cross was planted, and men arrayed in priestly black robes chanted the same service used in Cadillac's time. A parade was then formed which proceeded to the Campus Martius in front of the city hall, where the formal welcome was extended to Cadillac.

ROCK RIVER ASSEMBLY.

INTEREST IN PROGRAM GROWS.

**Mrs. Beecher as an Impersonator--
Band Gives Concert and
Bell Ringers Entertain--
Cohen on the Faces
We Meet.**

Mrs. Isabel Garghill Beecher, the celebrated impersonator, who has been secured by the Assembly to give four entertainments, made her first appearance at 2:30 yesterday afternoon. She has a pleasing personal appearance and possesses the natural ability to impersonate herself into the good graces of an audience by the time her first half dozen words are spoken. It can be truly said of her that she is a worthy successor of the late Scott Giddons, whose delineations were so popular and made their author so famous.

The afternoon's program embraced the usual variety that characterize all Mrs. Beecher's recitals. She was thoroughly at home in all her selections and made her audience feel the virtue of the characters she portrayed.

"A Man Without a Country" by Edward Everett Hale, was her first selection. This is a story that was first published in the Atlantic Monthly during the early part of the civil war. First, several army officers are introduced and their peculiarities of character delineated in detail. One of the officers damns the United States, whereupon by way of punishment he is put upon a ship that goes upon a long cruise. While on this ship he is so situated that he gets no news from home. One day while he with a company of officers were reading one of Scott's poems, he came upon a passage setting forth the condition of a man without a country.

He dashes the book into the sea, goes to his state room and is not seen for several months. He comes forth a changed man. On his death bed he asks for news from his country and home. He is told of the changes wrought by the war. He says, "No man loves my country more than I and none deserve one less." He asks to be buried in the sea and that a monument be erected in his memory.

The selections that followed were of a lighter vein and gave much delight to the small boy who with his gayety was much in evidence on the front seats.

An Old Virginia Character Sketch by T. N. Page was her next number. Mr. Page has made Virginia character his life study and has done much for the present generation in preserving unto them in his character sketches the real life of Old Virginia. One of his best sketches was presented by Mrs. Beecher in her impersonation of the Virginia dandy who refused to interpret the Emancipation Proclamation as being a benefit to his people. The old dandy soliloquizes while on his way to the railway station to meet some parties, in a manner that was very interesting, by Mrs. Beecher and substantially amounted to stating that he had such an affection for the people he was serving that he was satisfied with his condition.

The next portrayed was that of a girl of eighteen who married an old widower of sixty. It was Christmas time and the young bride went on a shopping tour to get her husband a suitable gift. She finally decided on a silver serving ice water pitcher. She had a terrible time making the decision and was several times reminded of the fact that she had given her husband a side saddle for Christmas the year before. This selection was "A Monologue of The Maryland Wife," by Rath Steuart.

Promptly at 7 o'clock the C. M. Henderson Shoe Factory Band appeared on the north balcony of the Assembly Hotel and rendered one of their finest concerts. The band has spent considerable time in preparing this series of concerts for the Assembly and last night's program showed that their energies under the efficient management of Prof. Will H. Smith had not been misdirected. Just after the shower the music of the band as it pealed forth through the park attracted the attention of quite a crowd which gathered in front of the hotel and many times gave evidence of their appreciation by hearty applause.

Prof. Will H. Smith musical director of the band, is a talented musician. He has not only a local reputation but his musical compositions have won for him an inviolable reputation as a composer of band music. Several selections rendered last evening were Mr. Smith's own compositions. They were the best features of the program and were

the most popular with the audience. Six of the seven concerts for which the band has been engaged are yet to come. They will next appear Saturday, July 27.

Immediately after the band concert the Imperial Hand Bell Ringers appeared in the auditorium where the largest audience that has gathered at the Assembly this year gave them a hearty greeting. The concert given by this company was a pronounced success. The hand bell ringing was a marvelous performance to every body who had the pleasure of being in attendance.

The five gentlemen that compose this company are all talented musicians. They have not approached perfection in their hand bell ringing, but with harp, mandolin, and banjo they have won an international reputation as musical artists. Mr. H. G. Shipp, the manager of the company is also very proficient on the zither. This afternoon he finished a zither solo that had to be abandoned last night on account of the commotion caused by the storm that occurred while the hand bell ringing concert was in progress.

For a time it looked very much as though the hand bell ringers would have to suspend operations for the tongues of bells cannot be made to vie with the voices of Nature. The storm became quite boisterous during the rendition of Mr. Shipp's zither solo and the company was compelled to take a recess. During this interval an attempt was made at starting a praise service, the audience joined singing several hymns and the service concluded with the doxology. By this time the storm without and the commotion within had sufficiently abated to permit the remaining numbers of the program to be presented.

The much needed rain that came last night was as much appreciated by the Assembly campers as by anybody else. Some little damages were done by the wind but no serious complaints have been reported. In a few instances where the precaution had not been taken to fasten the tents securely down the rain blew in and gave the premises a good drenching. Upon the whole however, last night's rain was a good thing for the Assembly. It not only freshened up things about the park cooled the atmosphere but also created better spirit among the people that patronize the Assembly.

A good audience was at the auditorium this morning. Dr. J. J. Tobias, Chancellor of Midland University was present and on behalf of the University and the Assembly schools he made a short speech and concluded with the school announcements. A number of free courses were announced the principal of which are the following:

Prof. Newton's course in sight singing, 9:30 a. m., Bible Hall.

Mrs. Josephine Turk Baker's course in correct English, 9:30 a. m., Chautauqua Hall. Mrs. Baker is considered the standard authority on correct English. Over 10,000 individual students have been under her tutorage and all speak of her course in the highest terms.

Arthur Edward Phillips, a course for ministers, how to read the Bible, 9:30 a. m., Chautauqua Hall.

Mrs. Phillips, physical culture, 9:30 a. m., Auditorium.

J. D. Rapp, Greek and Hebrew, for information regarding this course call on Dr. Tobias, dean.

The morning lecture hour was taken up by Herr Gustavus Cohen, the celebrated Prussian Jew. His subject was "The Faces We Meet." The lecture was a splendid one and very entertaining. Mr. Cohen had the largest crowd that has yet attended a morning lecture. Considering the difficulty which Mr. Cohen had to meet in handling our language he is a remarkable speaker and his fascinating platform methods hold the attention of the audience unwearied. He described many kinds of faces and illustrated his talk with portraits he drew upon the blackboard. As an artist he proved himself an expert. He executed the numerous drawings in an instant and used them in showing the characters possessed by men and women.

There are no two faces alike, said Mr. Cohen, sometimes though, there are two faces in one. Each tells its own tale. God so intended that faces should witness the lives of their owners. The photographs we have taken show that we have two faces. But each face tells its own tale, sickness or health, prosperity or adversity, sobriety or drunkenness, humorous or serious. When a man is sober he is sober all over, in his arms, his legs, his face. When he is drunk he is drunk all over. Drunkenness is a crime against neighbor, country, and the Creator.

God intended character to be visible in the face and gave women extraordinary power to read it. Character reading is not fortune telling. The Bible forbids fortune telling.

Astrology, Christian science, spiritualism and Dowleism were all then strongly condemned in their turn. Dowle is the living embodiment of the devil.

The black-board illustrations were next taken up by the lecturer. About

ASSEMBLY CHORUS.

The Assembly Chorus has been augmented by singers from surrounding towns. They meet at seven o'clock each evening and rehearse one hour. The work of the chorus shows steady improvement and a good program of popular and standard selections is being prepared.

Prof. Newton meets his classes daily at 9:30 a. m. in the Bible Hall. Sight singing and voice culture are the principal features of the class work. A model choir class has also been introduced. This class is conducted with the view of especially benefiting choir directors and choir singers. Prof. Newton also gives voice culture.

SUNDAY TICKETS.

Sunday tickets are now on sale at Miss Gelsenheimer's store and also at Leake Bros'. These places have the exclusive sale of Sunday tickets. They can be procured no where else. They will not be sold on the Assembly grounds this year.

D. William E. Barton of the First Congregational church of Oak Park, known to many of our readers as a native of Lee county and son of THE TELEGRAPH'S valued Sublette correspondent Dr. J. B. Barton, and one of the most eminent divines of the day, is organizing a "Bible Students' Oriental Cruise" to the Mediterranean and the Orient. It will be made in the "Celtic" the magnificent White Star new twin-screw steamer of 36,000 tons, the largest steamship in the world, which has been specially chartered for the purpose. The trip will take 74 days, from Feb. 8 to April 22, 1902. The expense will be \$400 and upward, according to stateroom accommodations, including shore excursions, hotels, fees, guides, drivers, and all necessary expenses. The itinerary includes Madeira, Gibraltar, Algiers, Malta, Alexandria, Cairo and the Pyramids, Jaffa, Jerusalem, and points of interest in the Holy Land, Constantinople, Naples, Rome, Liverpool, with side trips by rail and steamer to various places and across Europe. The trip will be under the management of Frank C. Clark of New York, who has planned and managed several successful trips of the kind. This is one of the very best opportunities of the kind, not only as to expense, but particularly as to the makeup of the party. Dr. Barton's address during July and August will be Foxborough, Mass., after that it will be Oak Park, Ill. It would certainly enhance the pleasure and add immensely to the interest and value of the trip to have the companionship of Dr. and Mrs. Barton. Certainly there could be no better opportunity for a visit to Europe and the Holy Land.

—The Grimes Quartet rendered very sweet music this afternoon in the line of vocal solos and four-part songs. The quartette consists of Arthur Grimes, Larry Connors and two Ross Brothers. The two latter arrived last evening from Des Moines, the party being entertained by W. J. Kennedy this afternoon.

INHUMAN CRUELTY OF A DAUGHTER.

A Mother, Over Eighty Years Old Was Beaten and Choked by Her Only Daughter.

An act of inhuman cruelty is reported to have occurred in the First Ward this morning and the residents of that ward threaten criminal prosecution. A mother whose hair has been turned white with the snow of eighty-one winters, whose form is bent with the weight of years, was the victim of inhuman cruelty at the hands of her only daughter. The mother is becoming childish, and this morning, she was knocked down and choked and otherwise abused by her unnatural daughter.

The poor old mother was unable to defend herself against the attacks of the daughter and was compelled to receive blow after blow and insult after insult without resistance, for she is very weak. At noon today she was taken to the home of friends in Sterling.—Sterling Gazette.

Dr. Koch's Wonderful Discovery.

Revolution but faintly expresses the effect upon the sanitary systems and medical theories of the world that will be caused by the discovery of Dr. Koch of Berlin to the effect that bovine tuberculosis cannot be transmitted into the human system.

The announcement made by this eminent German scientist to the British congress on tuberculosis, assembled at London, naturally attracts wide and skeptical attention from the medical and scientific world.

Physicians and sanitary experts have long proceeded upon the hypothesis that the human system is inoculated with tuberculosis by eating the meat or drinking the milk of tuberculosis-infected cows. Assuming this to be a scientifically demonstrated fact, nations, States and municipalities have adopted meat and milk inspection laws of the most rigorous character. Boards of health have enjoined upon city and State authorities the most rigid regulations calculated to protect communities from being inoculated with consumption from tuberculosis-infected flesh. In Illinois thousands of cattle, supposed to be infected with tuberculosis, have been killed by direction of the State Board of Health.

Dr. Koch has arrived at the conclusion, through what he regards as indisputable tests, that the bovine tuberculosis is incapable of inoculation into the human body and that mankind's fear of contact with tuberculosis-infected meat or fluid is therefore unfounded. If he is able to demonstrate his claims to the satisfaction of scientists, humanity's far-reaching precautions against infected cattle may be abandoned.

In the Record-Herald's report of the international tuberculosis congress being held in London, Dr. Koch is also accredited with saying that heredity is also an unimportant factor in the transmission of tuberculosis, in his opinion, though the contrary had long been believed. Dr. Koch said the chief danger of contagion lay in the sputum of consumptive patients and that a remedy was to be found in a law preventing the consumptive from spitting contagion about him.

Several methods to this end were available, said the doctor, the surest of which being that of isolation in sanitariums. This unfortunately, was impracticable, but he strongly urged the establishment of special consumptive hospitals and the obligatory notification of the authorities of the existence of the disease, the disinfection of their quarters whenever consumptives changed their residence, and the dissemination of information to the people concerning the true nature of consumption to aid in avoiding and combating it.

It Dazzles the World.

No Discovery in medicine has ever created one quarter of the excitement that has been caused by Dr. King's New Discovery for Consumption. It's severest tests have been on hopeless victims of Consumption, Pneumonia, Hemorrhage, Pleurisy and Bronchitis, thousands of whom it has restored to perfect health. For Coughs, Colds, Asthma, Croup, Hay Fever, Hoarseness and Whooping Cough it is the quickest, surest cure in the world. It is sold by Rowland Bros. who guarantee satisfaction or refund money. Large bottles 50c and \$1.00. Trial bottles free.

White Man Turned Yellow.

Great consternation was felt by the friends of M. A. Hozarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50c. Sold by Rowland Bros. druggists.

She Didn't Wear a Mask.

But her beauty was completely hidden by sores, blotches and pimples till she used Bucklen's Arnica Salve. Then they vanished as will all Eruptions, Fever Sores, Boils, Ulcers, Carbuncles and Felons from its use. Infallible for Cuts, Corns, Burns, Scalds and Piles. Cure guaranteed. 25 cents at Rowland Bros., druggist.

A Poor Millionaire

Lately starved in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him. They strengthen the stomach, aid digestion, promote assimilation, improve appetite. Price 25c. Money back if not satisfied. Sold by Rowland Bros., druggists.

Business men who lack the vim, snap and vigor they once had, should use HERBINE. It will purify the blood, strengthen and invigorate the system. Price, 50 cents. E. M. Bunnell Co.

Heartburn.

When the quantity of food taken is too large or the quality too rich heartburn is likely to follow, and especially so if the digestion has been weakened by constipation. Eat slowly and not too freely of easily digested food. Masticate the food thoroughly. Let six hours elapse between meals and when you feel a fullness and weight in the region of the stomach after eating, indicating that you have eaten too much, take one of Chamberlain's Stomach and Liver Tablets and the heartburn may be avoided. For sale by Rowland Bros.

Those who live on farms are especially liable to many accidental cuts, burns and bruises which heal rapidly when BALLARD'S SNOW LINIMENT is applied. Price 25 and 50 cents. E. M. Bunnell Co.

During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days time the child had fully recovered. The child is now vigorous and healthy. I have recommended this remedy frequently and have never known it to fail.—Mrs. Curtis Baker, Bookwalter, Ohio. Sold by Rowland Bros.

HERBINE clears the complexion, gives buoyancy to the mind, cures headache, regulates the stomach and bowels, stimulates the liver, and is, in fact, a perfect guardian of the health. Price 50 cents. E. M. Bunnell Co.

A Good Cough Medicine.

Many thousands have been restored to health and happiness by the use of Chamberlain's Cough Remedy. If afflicted with any throat or lung trouble give it a trial for it is certain to prove beneficial. Coughs that have resisted all other treatment for years, have yielded to this remedy and perfect health been restored. Cases that seemed hopeless, that the climate of famous health resorts failed to benefit, have been permanently cured by its use. For sale by Rowland Bros.

There is no longer an excuse for any one to endure the torture inflicted by piles when TABLER'S BUCKEYE OINTMENT will cure them, a remedy so moderate in price and so effective. Price 50 cents in bottles. Tubes 75 cents. E. M. Bunnell Co.

Children often cry, not from pain, but from hunger, although fed abundantly. The trouble arises from indigestion; their food is not assimilated, but devoured, by worms. A few doses of WHITE'S CREAM VEKMIFUGE will destroy the worms, when the children will begin to thrive at once. Price 2 cents. E. M. Bunnell Co.

GETS A GOOD POSITION

Negro Preacher at Work in One of the Best of the State Jobs.

WORK OF THE SEVENTH REGIMENT

Doings of a Tough Product of Chicago—Thugs Try to Wreck a Train—State News Notes.

Springfield, Ills., July 25.—The Rev. Jordan Chavis, of Springfield, has succeeded in landing the best plum in the state that is given to colored Republicans. Although Governor Yates has not announced Chavis' selection of a place in the Chicago grain office, the latter has been attending to his new duties for the past three or four weeks. Edward Morris and Major Buckner, both of Chicago, who are looked upon as leaders of the colored voters of the state, were both opposed to the naming of Chavis. Morris, at least, is said to have voiced his objections to Governor Yates in no uncertain terms.

Tanner Urged His Appointment.
Ex-Governor Tanner before his death urged Governor Yates to name Chavis for the job in the grain office. After Tanner's death the friends of Chavis feared that he would be unable to secure the place, and consequently brought every possible pressure to bear upon the executive, with the result that Chavis has been at work for some time. Edward J. Hamilton, a former correspondent of Springfield, but who for the past two years has been residing in Chicago, has been placed in charge of the clipping bureau. The work is done at the office at the executive mansion. Like the Chavis selection, Hamilton's appointment has not been announced.

Hot, Dull Day in Camp.

Springfield, Ills., July 25.—Tuesday was an exceedingly dull, hot day at Camp Lincoln, where the Seventh regiment is in camp. Yesterday afternoon Governor and Mrs. Yates gave a dinner to the officers of the regiment, and last evening the officers and band called at the mansion, where a concert for the public was given. Yesterday afternoon Buckey O'Neill, camp, No. 18, service men of the Spanish-American war, and veterans of the Seventh Illinois Infantry, held their regular meeting at the quarters. Major Ennis presiding. Last evening the dress parade was reviewed by Major Sisk, and formed by Lieutenant John R. McCabe, of the Second battalion.

JOHNIE IS A PRETTY TOUGH ONE

But 10 Years Old and a Most Incurable Thief.

Chicago, July 25.—Johnnie Engelmeier, the Austin police say, is the worst boy in that suburb, although but 10 years of age. Four burglaries and the theft of a bicycle and two horses and buggies, all in two weeks, is the record charged up to Johnnie. Here is a list of the depredations said to have been committed by him:

July 9, stole a horse and wagon, property afterwards recovered; July 13, stole a horse and buggy, property afterwards recovered; July 18, entered home of R. R. Clemenson through a window and stole old coins valued at \$200; July 20, entered the blacksmith shop of George Thompson at Pine and Chicago avenues, Austin, and stole a watch and chain. The other two crimes were committed less than a week later.

Devilish Attempt of Thugs.

Carbondale, Ills., July 25.—A gang of desperadoes attempted late Monday night to wreck a train on the Gale branch of the Illinois Central railroad near Texas Junction by placing two tie rails across the tracks just by the side of a ravine, and on a curve of the road. A passer-by detected the obstruction, and in attempting to remove the same was attacked by the men, but escaped and reached the station in time to save the train. Sheriff Griffin and Peak have arrested Rolla Atkins as a suspect.

Good Roads Train at Edgingham.

Edgingham, Ills., July 25.—The good roads train arrived in this city Monday morning. The train consisted of eleven cars loaded with road making machinery, and assisted by local workers the crew spent Tuesday in making a two-mile track of graded road leading out of this city. The good roads convention met at Austin Opera House, M. O. Eldridge, assistant director of the office of public roads inquiries, department of agriculture of the United States, gave a lecture on roads of the world.

Consecration of Quincy's Bishop.

Springfield, Ills., July 25.—The consecration of Ven. Frederick W. Taylor, of Springfield, now rector of St. Paul's pro-cathedral, as bishop coadjutor of Quincy, will occur Aug. 6 at St. John's cathedral, Quincy. Bishop Clark, of Rhode Island, senior bishop of the Episcopal church, will preside. Rt. Rev. Dr. George F. Seymour, bishop of Springfield, will be consecrator, with Rt. Rev. Dr. Nicholson, bishop of Milwaukee, and Rt. Rev. Dr. Francis, bishop of Indiana, as assistants.

Found a Bride at Rossville.

Danville, Ills., July 25.—Errel E. Hart, of New York, and Miss Katherine Lee were married Tuesday at the home of the bride's mother in Rossville, this county. The ceremony was witnessed by a few friends and relatives. Mr. and Mrs. Hart will spend their honeymoon at Buffalo, en route to New York city. Hart was until recently connected with a Chicago paper.

Hot at the State Capital.

Springfield, Ills., July 25.—Yesterday was the hottest on record in Springfield with two exceptions—last Sunday and Monday. The government thermometer registered 103 and street thermometers a maximum of 106. The sky was clouded late in the afternoon and it was thought rain would break the heated term, but no rain fell.

WOMAN'S FRIGHTFUL FALL

Six Stories from a Chicago Hotel Window—Dies in the Hospital.

Chicago, July 25.—Mrs. Brick De Graff, of LaCrosse, Wis., who fell from the sixth story window of the Morrison hotel early yesterday morning, died shortly after she had been taken to the county hospital. The police say that the woman accidentally fell from the window. The woman was nude when she struck the pavement, and the occupant of a neighboring room says that just before she fell she was throwing her shoes at the door and calling for beer. She had been registered during the day as follows: "B. DeGraff and wife, LaCrosse, Wis.," B. DeGraff being with her. They went out in the evening, the woman returning alone.

LaCrosse, Wis., July 25.—The woman who was killed by falling out of the sixth-story window of the Hotel Morrison, Chicago, was the divorced wife of Brick DeGraff, a local tailor. DeGraff was divorced from his wife about three months ago on the ground that she was a habitual drunkard. The couple had been married only about three years, and during that time were divorced three or four times.

HERE'S A STATE OF THINGS!

Minnesota Officers of the Law Found Dealing in Unlawful Products.

St. Paul, Minn., July 25.—Inspector Chappell, of the pure food department, reports a peculiar complication in the town of Childs, Wilkins county. Chappell found that the constable, who runs a store in Childs, was carrying a line of unlabeled baking powders. He had the constable brought before the justice of the peace, and the justice fined him \$25 and costs.

But the justice also was a storekeeper, and Chappell found that he was carrying a larger stock of illegal goods than the constable. So the constable and the inspector had the justice, as storekeeper, summoned before himself, as justice, where he pleaded guilty and fined himself \$25. The constable and justice agreed to waive the costs and call the deal even.

Another Day of Constitution Weather.

New London, July 25.—In a fine southwest breeze yesterday, over the thirty-nine-mile course from New Haven breakwater to Sarah's Ledge, at the mouth of New London harbor, the Constitution again showed what a superb racing craft she is in light weather and smooth water. She beat the Columbia 8 minutes, 23 seconds fairly and squarely. There were no flukes, the wind holding true and steady.

Railway Ordered To Be Sold.

Washburn, Wis., July 25.—An order has been issued out of the United States court for the sale of the Washburn, Bayfield and Iron River railroad, and the date fixed for Aug. 20, to take place in this city. Notice is given that no bids below \$225,000 will be considered.

Robbed by a Sharp Gang.

London, July 25.—"Rev. Mr. Todd, an American clergyman, was robbed of \$1,000 while on the Paris-Geneva express," says a dispatch from Geneva to The Daily Mail. "He is one of numerous victims of two fashionably dressed women and two presentable men."

Von Waldersee at Port Said.

Port Said, July 25.—Field Marshal Count von Waldersee, who arrived here yesterday on the German steamer Gera, took luncheon on shore and received visits from the German consul, the commander of a British warship and various officials.

Fatal Electric Car Accident.

Green Bay, Wis., July 25.—Florence Dorcy, aged 20 years, was killed, and Clara La Voy and John Quirk were badly injured by being run down by an electric street car while driving from Depere.

Now, Where Is Santos-Dumont?

Sioux City, Ia., July 25.—Dirt commenced to fly Tuesday on the grade for the extension of the Chicago and Northwestern company's line from Moline to Sioux City.

THE BLEEDING CURE.

A RELIC OF THE MEDICAL METHODS OF A CENTURY AGO.

The Barbarous Practice of "Cupping" Suffering Humanity Still Has Its Adherents—The Operation a Somewhat Delicate One.

One hundred years ago the sovereign balm for every ill, from fainting to fever, was bleeding. The wonder is that a human race was left to admit the folly of the practice. It was the correct method of the day, recommended and employed by the best physicians of the time. The surgeon who attended George Washington in his last illness first set about bleeding his august patient. The story is that he took several cups of blood from the vigorous arm of Washington and then diagnosed the case. Washington died. Some say that if he had not been bled he probably would have lived.

The cry comes, But that was a century ago! In sharp contrast stands the wonderful advances made by modern surgery. Thankfully it may be said that such is the truth. But sometimes customs die hard, and today the doctrine of "cupping" has devotees as faithful as those who gave up their life sustaining fluid in Washington's time. This is a startling statement. The writer would have been skeptical if he had not learned its truth himself.

In the seventeenth and eighteenth centuries this gruesome form of treatment was the work of the barber. That guild has maintained its prerogative into the twentieth century. In a certain little side street in New York, crushed between two towering brick buildings, stands a third story and a half frame house. The suggestive striped pole which emblazons the art of the dweller within juts over the walk. In the window hangs a sign bearing the word "Cupping." If today were set back to 1700, the pole alone would tell the story. Times, they say, have changed, and so the sign.

The barber is a German. He was much surprised at the question asked. Everybody knew that cupping was a necessity, especially in the spring, he said. Sometimes, he added, he was so busy that little time remained for his shaving and hair cutting of customers.

"Aah, yes," said the barber, "it keeps me a busy man. How strange you say that you thought it no longer was practiced. People come here morning, noon and night every day, but mostly do they come here in the spring and fall. It is then that the blood needs drawing off. If you have a pain in your head, you come to me. I take my little cup, burn the air in it out, push down my little knives just behind your ear on the neck, and when the cup is full I take it away. If your headache is not better yet, I take another cup, so be it that the bleeding stop not, upon the other side. Maybe your back pains; I cut you a little on the side. Your arm pains; I draw the blood from your wrist."

The barber bared his arm. The skin was crossed with tiny, pale nicks, like those one sees on the wrist of a morphine victim.

"Twelve is the number of cups I draw at one sitting," the barber said. "It is a bad pain that will not be gone then. If you come again the next day with the pain, I draw off more until the ache has disappeared completely."

The cups look like sherry glasses with the stems removed. The knife, or lancet, is arranged like a name stamp. Pressure on a spring plunger drives the little blades, which are arranged in pairs or triplets, into the skin. It is here that the skill of the operator comes into play. When the incisions are made in the neck too violent, a tap on the plunger might mean the severing or wounding of an artery. Pressure too light would not let the blood flow fast enough. The barber must have a trained touch.

Upon the condition of the cup much depends. The air is exhausted by means of a tiny alcohol flame. This makes a vacuum. The cup is pressed on lightly, but firmly. The blood rushes under the skin beneath its rim; then, like a flash, the little knives are pushed down, and the bleeding begins. The operator never takes more than 12 cups at one sitting. That would mean perhaps a half pint of blood.

This system of bleeding for human ailments harks back to the earliest times. All through the middle ages it was the healing balm for the sufferings of mankind. The ancients firmly believed that the loss of blood in this manner drew from their systems the "noxious humors" which afflicted them. The advent of the modern school of medicine and surgery did away with the process as a universal therapeutic measure. It was not until the nineteenth century was nearly half completed, however, that physicians abandoned it as a practice.—New York Tribune.

A Trait of the Sex.

A traveling man who had been absent on a long trip just returned, and his 4-year-old daughter would not at first come near him. Every time he approached her she ran away. The father finally sat down on the floor and, picking up some toy dishes, asked his daughter to come and play party with him.

This had the desired effect, and the child came and played with her parent, who asked her why she didn't come to him before.

"Oh, papa," replied the youngster, "I'm so shy."—Pittsburg Press.

Sweeping.

A young man who had just entered the office of Jeremiah Mason, the great New Hampshire legal luminary, to study law asked him where he should begin. Mason, pointing to the books on the library shelves, answered laconically, "Anywhere."

THE NEXT CAMP MEETING.
Presiding Elder's Annual Bulletin Now Ready--The Date Is August 19-25.
The bulletin for the next campmeeting at Franklin Grove is now ready for delivery. The session will be held August 19 to 25, and from all indications, it will be one of the best in the history of the association.
The Rev. Elwood J. Buglin has been engaged to assist in the evangelistic work of the camp meeting. He is to have full charge of the bible study hour from 8:45 till 10 o'clock and to assist in other services as the opportunity affords. As an expositor of scripture Mr. Buglin has few equals. He is clear and convincing, tender and effective, and at the same time he is fearless and strong.
Professor Perry Stevenson of Midland university, Dixon, is to be the chorister. He comes with the highest recommendations and is peculiarly fitted for the place. Miss Flora Wickler will again preside at the organ.
The association officers are: President, Grover F. Clark, D. D. Vice president, W. A. Phillips, D. D. Secretary, A. J. Nickey. Treasurer, K. Ruoyan. Superintendent of grounds, N. G. VanSant.
Pentecosta Hymns No. 2, the book that was used last year, will be the singing book for this season. A supply will be on hand for sale.
Special preparations have been made for the Junior Leaguers, and services will be held for them every day. Epworth League Day is Saturday, August 24. The anniversary sermon will be preached by the Rev. W. H. Pierce of Rock Falls.
The camp's Sunday School will be held as usual on Sunday afternoon, August 25, at 1:15. This, it is expected, will be an especially enjoyable service.
The dining hall will be in charge of the women of the Rock Falls church. Miss Cora J. Livermore has been engaged to conduct the kindergarten this year.

DIXON, ONE DAY ONLY, Saturday JULY 27th.

THE ROLL OF HONOR
Contains nothing more illustrious, noble and exalted than the names of those who have devoted their whole lives to the education, advancement and pleasure of their fellows. To have given the world something original, ingenious and entertaining is quite enough to command favorable recognition, and

'BUFFALO BILL'S WILD WEST
AND CONGRESS OF ROUGH RIDERS OF THE WORLD
has, by reason of its distinctive, bold, dashing character, won the admiration of countless thousands in nearly every civilized quarter of the globe. Differing as it does from all other exhibitions, it at once enlists attention, charms and fascinates every beholder. The great strength of this extraordinary condition of things lies in the fact that

IT IS GENUINE
There is no sham or subterfuge about it, everything is just as it is represented to be. The participants have all been selected to fitly illustrate the scenes which they have heretofore enacted and made them famous in the open field and on the war path. Little wonder then that sage and avant should find rest and recreation in reviewing such an exhibition again and again, and more the marvel that anyone should miss an opportunity to witness a performance so unique in all that it exemplifies. It is a VERITABLE KINDERGARTEN OF HISTORY, over two decades in existence, teaching equestrianism, primitive savagery and civil military tactics, conjoined with an annex of colonial equestrianism, illustrated by the horsemen and heroes of nearly every nation on earth. It is a vivid and inspiring reproduction of history's latest martial triumphs, presented by a detachment of those modern marvels of civic military merit, to all future fame as

ROOSEVELT'S ROUGH RIDERS
together with their companion patriots and laurel-crowned paragons of bravery, discipline, endurance and skill, the

United States Regular Cavalrymen
With whom will appear splendidly inspiring contrast, and illustrating the myriad features of the proud old pioneer school, the most varied and unique muster-roll of

The World's Mounted Warriors
Brought together for the first time in history in peaceful rivalry, and forming a grand exhibition of the brotherhood of man. The roster includes

United States Cavalrymen and Artillerymen,
German Cuirassiers, South American Gauchos,
Russian Cossacks, Sioux Indians,
Arabian Acrobats, Wild West Cowboys,
Colonial Dragoons, Northwest Mounted Police,
Mexican Vaqueros, Strathcona Horse,
and a general "round up" of all

THE EQUESTRIAN NATIONS OF THE WORLD
And as a fitting climax to this already tremendous exhibition in which OVER 1,200 MEN AND HORSES PARTICIPATE

Will be presented the historic military masterpiece of
THE BATTLE OF TIEN-TSIN AND THE CAPTURE OF PEKIN
A most exciting feature in which the Allied Powers of the world are correctly represented. The bright colored uniforms of the different forces engaged make this one of the grandest spectacles ever witnessed. THE MARINE DRILL and other maneuvers by members of the U. S. LIFE-SAVING SERVICE including the operation of the Life-line and Breches Buoy, a most thrilling event. Direct from their engagement in the Transvaal, a squad of

BADEN-POWELL'S HEROES OF MAFEKING
In addition to a selected contingent of

OOM PAUL'S BRAVE BOERS
Deadly enemies riding side by side, a scene never before witnessed. Thus it will be seen that the Wild West with all its military aspect and events showing the progress of civilization from the primitive pioneer days up to the very moment of the present stirring episodes, is

MORE COMPLETE THAN EVER
IF SUCH A THING WERE POSSIBLE.

THE GRAND STREET CAVALCADE AND REVIEW OF THE ROUGH RIDERS
